

Supplying the workforce

Supplies

We take the best names in the business and combine them with an experienced staff to provide customers with unbeatable value and service. The product lines we offer provide the quality innovation and reliability you depend on to get the job done.

Logan has everything you need, including safety equipment, hand tools, drill steel, concrete finishers, and ground engaging tools from ESCO and Bucyrus Blades. Additionally, our specialized Locomotive Renewal Parts division offers more than 70 years of experience in the locomotive parts industry.

Our parts warehouses are modern, state-of-the-art facilities where we inventory an extensive stock of supplies to support our varied lines.

Factory-trained customer service personnel are specialists in their marketing areas. We are ready to assist you with quotations, orders, and technical assistance.

It is our belief that technical expertise is the key to providing our clients with comprehensive solutions. That's just what we do, allowing you to complete your work on time and on budget.

Serving mining, construction and industrial markets.

Supplies

Over 100 years of service

Service

Logan Corporation ranks service in all areas of our company as the number one priority to our customers. We have dedicated employees trained to give you the customer service you deserve, whether it is in Manufactured Products, Manufacturing, Non-Complex Parts™ Equipment or Supplies, we are here to serve you.

Logan Corporation service professionals are qualified and ready to provide service designed to keep you on the job, from routine maintenance to customization and reconditioning. While Logan Corporation's service staff is ready to put their experience to work for you whatever the need, we are the leader in fire suppression and lubrication service.

Fire Suppression

Logan Corporation offers the very best in fire suppression systems to protect both operators and equipment. Installations are made at your site, by Logan's factory certified installers.

Lubrication

For all of your lubrication needs, our products provide only the best quality

Our success in industrial lubrication is a direct result of our technological expertise, production capabilities, emphasis on research and a demonstrated concern for quality products and fast, responsive customer service.

Serving mining, construction and industrial markets.

Service

Manufacturing for today's business

Manufacturing

Logan Corporation offers an innovative, expanding line of reverse engineered Non-Complex Parts™ for a wide range of OEM mining and construction equipment – all guaranteed to fit.

Logan drill steel is manufactured on computer-controlled equipment for the closest tolerance available. The result is greater control and longer life.

Our products include:

- Drill Bits
- Bit Adapters
- Machining Services
- Mine Supplies
- Top Subs
- Rotary Bushings
- Repairs
- Bed Liners
- Bowl Liners
- Lips
- Bucket Parts
- Drill Steel

You can depend on our steel going to the field only after it has passed a rigorous series of quality checks, including magna-flux inspections of all welds to ensure physical integrity and reliability.

Serving mining, construction and industrial markets.

Manufacturing

Equipped for your business success

Equipment

Whether the job is big or small, we have all the rental equipment you need; air compressors, excavating equipment, air tools, generators, pumps, manlifts, trench shoring systems and more. Terex, Sullair, Honda and Genie are a few of the quality brands you will be able to rent and purchase from Logan Corporation.

Our equipment is designed to increase productivity drive the bottom line, and provide unequalled value. From drilling to digging to hauling and lifting, Logan Corporation is here to exceed the expectations of those we serve. Whatever the project, we've got you covered.

Because your reputation is on the line with every project you complete, we only partner with equipment vendors that have set the standard in the industry. Our relationship with industry leaders allows us to provide you with the most advanced, safe, rugged, reliable and economical equipment in the world today. When you couple that with an expert service staff, Logan Corporation outshines the competition.

When you need industrial, mining, aggregate or construction equipment, the only stop you need to make is Logan Corporation.

Serving mining, construction and industrial markets.
